WE USE LATEST TECHNOLOGIES FOR WEB DEVELOPMENT

ANGULAR

Angular is a TypeScript-based open-source front-end web application platform led by the Angular Team at Google and by a community of individuals and corporations. Angular is a complete rewrite from the same team that built AngularJS.
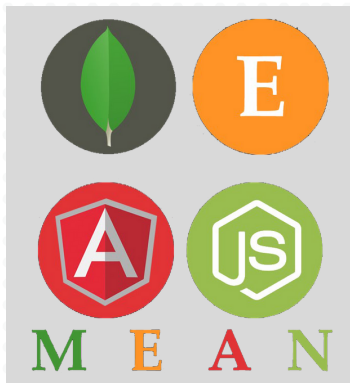

MEAN STACK

MEAN is a free and open-source JavaScript software stack for building dynamic web sites and web applications. The MEAN stack is MongoDB, Express.js, AngularJS, and Node.js.

IONIC

Ionic is a complete open-source SDK for hybrid mobile app development. The original version was released in 2013 and built on top of AngularJS and Apache Cordova. The more recent releases, known as Ionic 3 or simply "Ionic", are built on Angular.
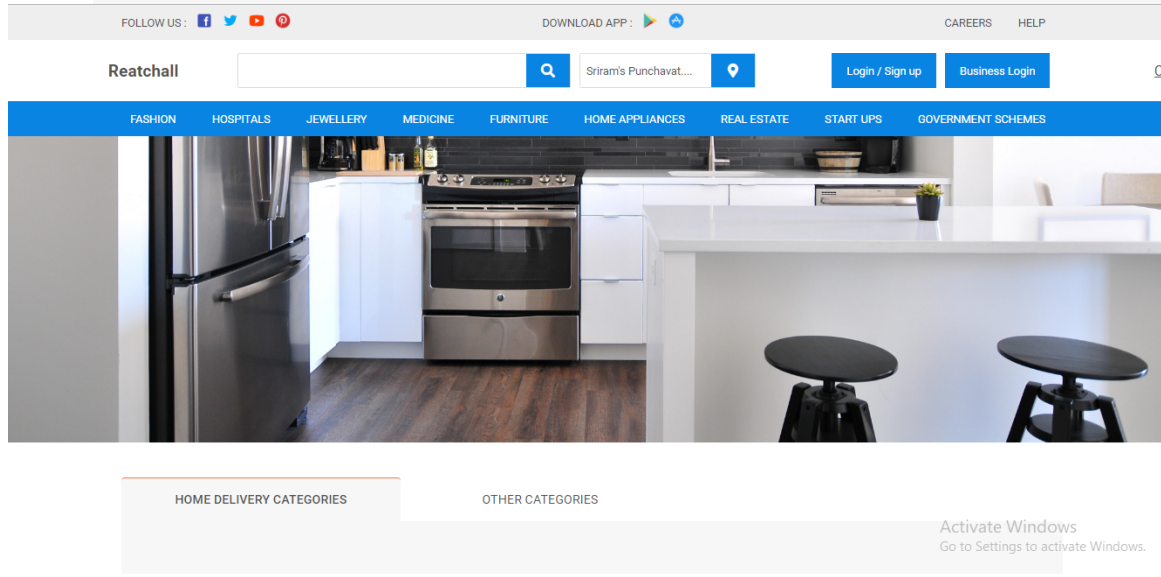

CLOUD HOSTING

Cloud hosting is an alternative to hosting websites on single servers (either dedicated or shared servers) and can be considered as an extension of the concept of clustered hosting where websites are hosted on multiple servers.

PROJECTS UNDER WORK

PROJECT NAME: REATCHALL

STATUS: UNDER DEVELOPMENT

Reatchall aims to provide for people where regular delivery services and e-commerce websites fail to. Reatchall aims to bring people and vendors closer and make the transactions between them seamless. In addition to providing the details and all the necessary info for the user about any vendor near him, it also let's user choose from all the local vendors near him/her and place order and get the appropriate products delivered to them on the same day.

PROJECTS UNDER WORK

PROJECTS ARE READY TO HIT THE CROWD IN DAYS

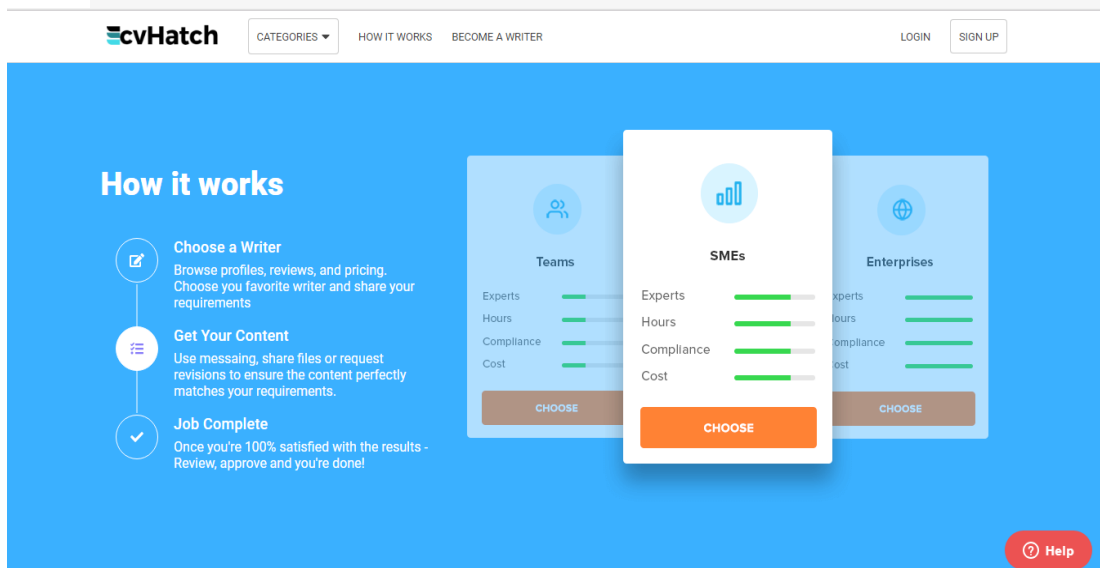

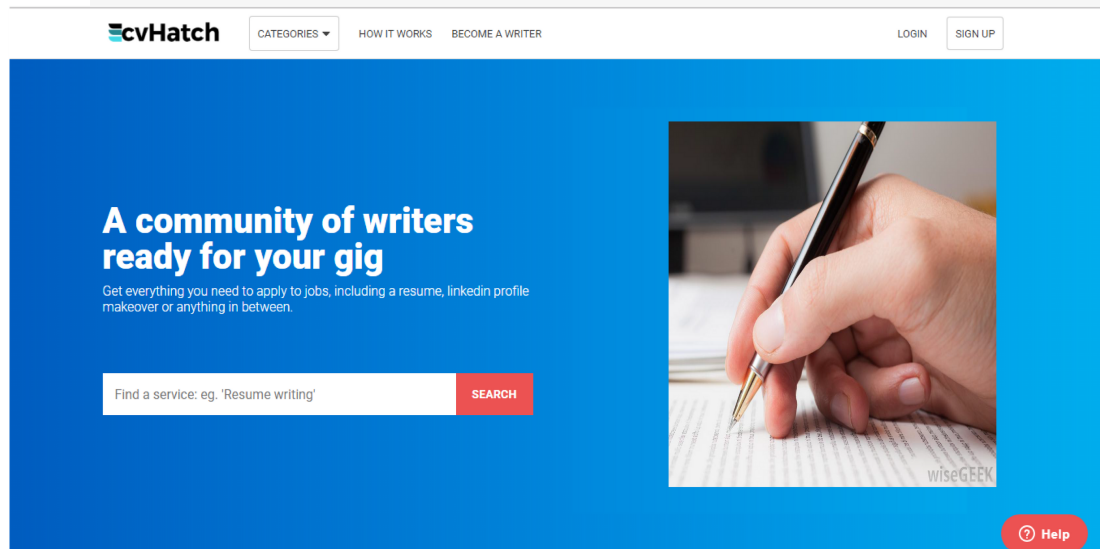

PROJECT NAME: CVHATCH

STATUS: UNDER DEVELOPMENT

cvHatch lets users and service providers collaborate and create projects online. Simple and elegant User Interface lets user to focus on what he/she wants rather than how the website works. Any user can register as seller for free and start selling his gigs. Keeping track of deadlines and making sure both the parties are satisfied with their output is a responsibility cvHatch has entrusted itself with.
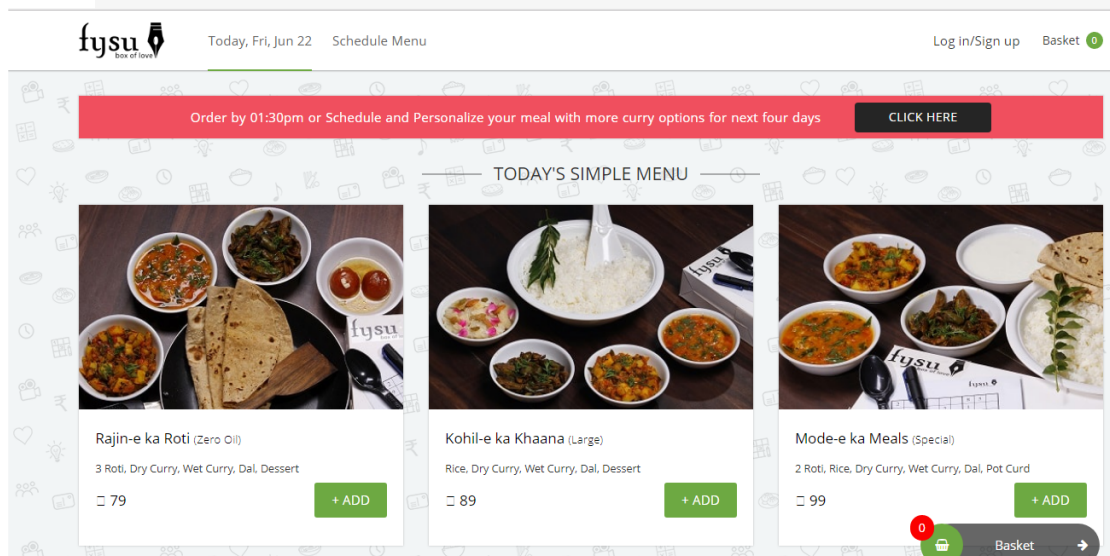

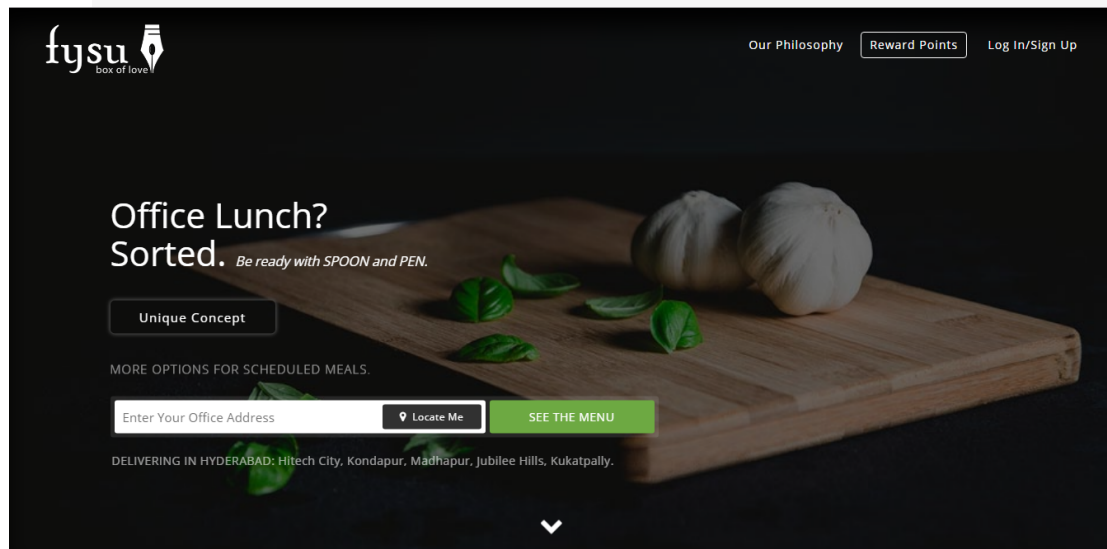

FYSU

PROJECT NAME: FYSU

STATUS: UNDER DEVELOPMENT
WEBSITE: HTTPS://WWW.FYSU.IN/

At Fysu, our home chefs cook few orders every day, same food for their customers and their families as well. You will have the peace of mind in knowing that you are having the fresh ingredients, and it's hygienic.
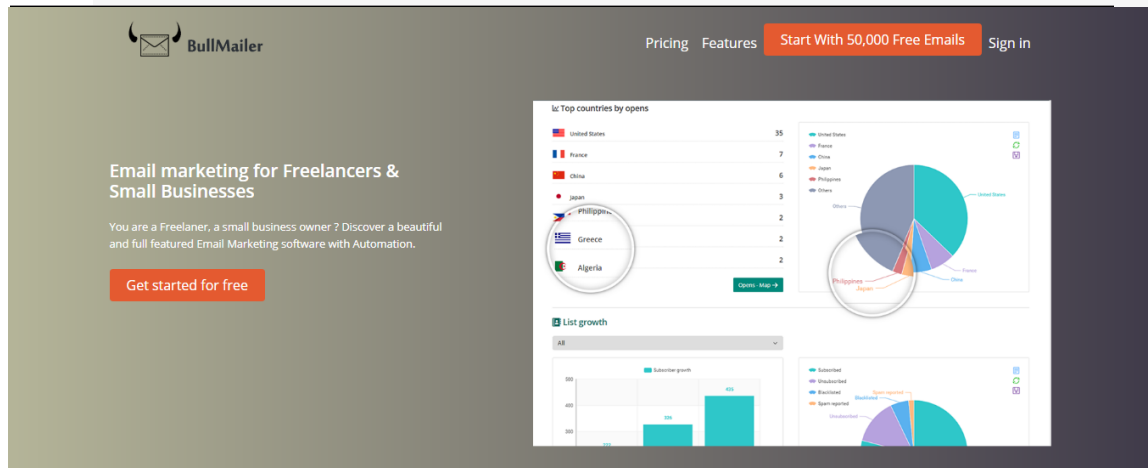

Introducing a ground-breaking idea to make your lunch time fun, creative and useful. Bringing back the lost art of letter writings and reinventing the concept of daily writing habits with our home cooked food.

BULLMAILER

# PROJECT NAME: BULLMAILER
